II. Health information	II.a. Certificat reference number	II.b. TRACES reference number
------------------------	-----------------------------------	-------------------------------

I. Health information

I, the undersigned, certify that the horse described above meets the following requirements:

- (a) It comes from a country where the following diseases are compulsorily notifiable: African horse sickness, Dourine, Glanders, Equine encephalomyelitis (of all types including VEE), Infectious anaemia, Vesicular stomatitis, rabies, anthrax.
- (b) It has been examined today and shows no clinical sign of disease (2).
- (c) It is not intended for slaughter under a national programme of infectious or contagious disease eradication.
- (d) since its entry into the country of dispatch, it has been resident on holdings under veterinary supervision, accommodated in separated stables without coming into contact with equidae of lower health status except during racing;
- (e) It does not come from the territory or in cases of official regionalization according to EEC legislation from a part of the territory of a third country in which:
  - (i) Venezuelan equine encephalomyelitis has occurred during the last two years;
  - (ii) Dourine has occurred during the last six months;
  - (iii) Glanders has occurred during the last six months;
- (f) It does not come from the territory or from a part of the territory of a third country considered, in accordance with EEC legislation, as infected with African horse sickness.
  - It was not vaccinated against African horse sickness. (3) or
  - It was vaccinated against African horse sickness on (4) (5). (3)
- (g) It does not come from a holding which was subject to prohibition for animal health reasons nor had contact with equidae from a holding which was subject to prohibition for animal health reasons:
  - (i) during six months in the case of Equine encephalomyelitis, beginning on the date on which the equidae suffering from the disease are slaughtered;
  - (ii) in the case of infectious anaemia, until the date on which, the infected animals having been slaughtered, the remaining animals have shown a negative reaction to two Coggins tests carried out three months apart;
  - (iii) during six months in the case of Vesicular stomatitis;
  - (iv) during one month from the last recorded case, in the case of rabies;
  - (v) during 15 days from the last recorded case, in the case of anthrax, (3) or
  - (v) if all the animals of species susceptible to the disease located on the holding have been slaughtered and the premises disinfected, the period of prohibition shall be 30 days, beginning on the day on which the animals were destroyed and the premises disinfected, except in the case of anthrax, where the period of prohibition is 15 days. (3)
- (f) It does not come from the territory or from a part of the territory of a third country considered, in accordance with EEC legislation, as infected with African horse sickness.

2. Residence and quarantine information:

- (a) The horse entered the territory of the country of dispatch on (insert date).
- (b) The horse arrived to the country of dispatch from either a Member State of the European Community (1) or from (insert name of country from where the horse arrived into the country of export), the latter being one of the countries listed above. (1)
- (c) The horse entered the country of dispatch under animal health conditions at least as strict as those laid down in this certificate.
- (d) As far as can be ascertained and based on the attached declaration of the owner (1) or the representative of the owner (1) of the horse, which is part of the certificate, the horse has not been continuously outside the European Community for more than 90 days, the date of scheduled return in accordance with this certificate included, and has not been outside the countries listed above.

3. The horse will be sent in a vehicle cleaned and disinfected in advance with a disinfectant officially recognized in the country of dispatch and designed in a way that droppings, litter or fodder cannot escape during transportation.

4. DECLARATION

- The undersigned (insert name of the owner (1) or the representative of the owner (1) of the horse described above in block letters) declares:
- the horse will be sent directly from the premises of dispatch to the premises of destination without coming into contact with other equidae not of the same health status;
  - the horse is moved only between premises approved for horses participating in Group/Grade meetings in Australia, Canada, United States of America, Hong Kong, Japan, Singapore or United Arab Emirates;
  - the horse was exported from a Member State of the European Union on (insert date)
